

Installation of the Marlin F033-C

1. Install the FirePackage (*FirePackage2v11.msi*) from the DEWETRON System CD and follow the installation instructions.
2. Go to *Start→Programs→FirePackage2v11→InstallDriver.exe*
3. Select the Firewire ports where the Marlin driver shall be installed.

4. When asked, confirm the driver installation.

5. The driver installation is now finished. If DEWESoft was running during the driver installation it has to be restarted to recognize the cameras correctly.
6. In DEWESoft go to *System→Hardware setup→Video* to activate the Marlin camera.

To uninstall the Marlin driver:

1. Start *InstallDriver.exe*
2. Deselect the ports where the Marlin driver shall be removed.
3. Select *Install Microsoft Driver for others*.
4. Click on *Install*.
