

# Industrial PCs

- Run any Windows® software
- COTS / open architecture computer platform - easy to upgrade
- Removable HDD upgrades
- Standard 10/100/1000 Ethernet, USB 2.0, FireWire®
- 100 % burn-in tested

DEWETRON offers a wide range of industrial PCs reaching from benchtop or 19"-rackmount units for in-lab-use to ultra portable instruments for field-use. All DEWETRON IPCs offer PCI slots for adding customers cards, are equipped with the latest PC technology and a choice of power supplies is available.

The open architecture platform allows easy installation of customers PCI cards and software. The rugged aluminum chassis is especially developed for use under harshest environments.

| Weight                 | Typ. 11 kg (24 lb.)                        |

#### Environmental specifications

|                         |   |
|-------------------------|---|
| Operating temperature   | 0 to +50 °C, down to -20 °C with prewarmed unit |
| Storage temperature     | -20 to +70 °C                                   |
| Humidity                | 10 to 80 % non cond., 5 to 95 % rel. humidity   |
| Vibration <sup>3)</sup> | MIL-STD 810F 514.5, procedure I                 |
| Shock <sup>3)</sup>     | MIL-STD 810F 516.5, procedure I                 |

<sup>1)</sup> Please find current specifications in the latest price list

<sup>2)</sup> Depends on the system configuration

<sup>3)</sup> Tested with Solid State Disk

DEWE-2608 industrial PCs are unique platforms with a lot of advantages. The rugged aluminium chassis allows uses under harshest environments.

There is a brilliant 15" TFT display and you can install up to six full-size PCI cards into this unit. USB connectors, Ethernet and DVD +/-RW drives are standard on these systems. For classified work there is a removable HDD drive. An internal solid state disk for Windows operating system can be added additionally.

Removable hard disk

**DEWE-2608 system options and upgrades**

| Options              | Description   |
|----------------------|---|
| DISP-15-TOUCH        | Touchscreen for 15" display   |
| 2600-FIREWIRE        | PCI Express FireWire® interface for the DEWE-2608   |
| 2600-PS-BAT          | Battery power supply with UPS function, 18 .. 24 V <sub>DC</sub> non-isolated input, incl. external AC power supply DEWE-POW-24-350, 3 slots for hot-swappable batteries, 3 batteries for appr. 3 hours operation included, for DC operation always add DEWE-DCDC-24-300-ISO                |
| DEWE-DCDC-24-300-ISO | External DC/DC converter with isolation, 9 to 36 V <sub>DC</sub> input range, Lemo EGJ.3B.302, incl. 2 m cable to banana jacks, 24 V <sub>DC</sub> output, 300 W, Lemo EGG.2B.302 socket  |
| BAT-95-WH            | Lithium-Ion battery, 14.4 V, 95Wh, max. 8A  |
| BAT-CHARGER-1        | Desktop battery charger for 1 battery, incl. external AC adaptor  |
| BAT-CHARGER-4        | Desktop battery charger for 4 batteries, incl. external AC adaptor  |
| PS-BAT-REMOTE-ON     | Special add-on for the battery power supply, one extra connection with a wake-up signal is needed to the power supply input of the unit, allows to automatically turn on the instrument when the ignition of the car is turned on, also turns off the instrument when the car is turned off |
| Upgrades             | Description   |
| HDD-1000-SSD-480     | Upgrade to 480 GB flash disk (replaces 1 TB hard disk), max. data throughput 100 MB/s   |
| HDD-REM-1000         | Spare removable hard disk, 1 TB   |
| 2600-SYSTEM-SSD-120  | Additional internal SSD 120 GB for Windows, the removable hard disk remains   |

**2600-PS-BAT****Optional battery power supply**

*This option turns your DEWE-2608 into a fully battery powered unit. The hot-swappable batteries guarantee continuous operation without an external power source. The instrument can be operated for up to 3 hours with 3 batteries (BAT-95WH) installed. Since this time depends a lot on the system configuration software tool shows the battery status. Operating temperature is limited to 0 .. 45° C when batteries are charged.*

**Available PCI slots****Available slots**

8 available PCI slots in total

*Rugged guides for full-size cards and a fixing bar hold all installed cards in place safely.*

**2600-SYSTEM-SSD-120**

Additional internal Solid State Disk

**DEWE-DCDC-24-300-ISO**

*Isolated DC power supply, needed to operate units with 2600-PS-BAT option from DC*

DEWE-5008 industrial PCs are unique platforms with a lot of advantages. The rugged aluminium chassis allows uses under harshest environments.

There is a brilliant 17" full-HD TFT display and you can install up to five full-size PCI cards into this unit. USB connectors, Ethernet and DVD +/-RW drives are standard on these systems. For classified work you can add a removable HDD drive - or even two of it. The internal hard disk or solid state disk can stay additionally if required.

The systems are designed for both laboratory and field usage. High quality production of the systems is complemented by an attractive price.

**Available slots:**

There are 7 available slots in total.

In the standard configuration the unit offers five full length PCI 32 bit, one full length PCI Express 16x.

**DEWE-5008 system options and upgrades**

| Options                     | Description  |
|-----------------------------|--|
| FIREWIRE-1394               | PCI FireWire IEEE-1394 interface for the DEWE-5000   |
| 5000-PS-BAT                 | Power supply 18 to 36 VDC (no internal battery),<br>Lemo EGJ.3B.302 for DC input, incl. external AC adaptor  |
| Upgrades                    | Description  |
| HDD-1000-SSD-256            | Upgrade to 256 GB flash disk (replaces 1000 GB hard disk),<br>max. data throughput 40 MB/s   |
| Removable drive bay options |  |
| BAY-5.25-SATA-SLIM          | 5.25" SATA removable drive bay, low profile version 28.7 mm / 1.13 in.,<br>no hard disk included, up to two of these drive bays can be installed into one unit |
| HDD-3.5-SATA-1000           | 1000 GB SATA hddisk 3.5", for installation into a 5.25" removable drive bay  |
| BAY-3.5-SATA                | 3.5" SATA removable drive bay,<br>no hard disk included, max. one drive bay per unit   |
| SSD-2.5-480                 | 480 GB SATA solid state disk, for installation into a removable drive bay  |
| HDD-SATA-1000               | 1000 GB SATA hard disk 2.5", for installation into a 3.5" removable drive bay  |
| HDD-INT-MINUS               | Remove the internal fixed hard disk  |

**5000-PS-BAT****Optional battery power supply**

The DEWE-5000-PS-BAT option turns your DEWE-5000 into a fully battery powered instrument. Three hot-swappable batteries guarantee continuous operation without an external power source for up to 2 hours. Since this time depends a lot on the system configuration, a DEWESoft plugin shows the battery status directly in the software.

One or even two 3.5" removable hard disks can be installed into a DEWE-5008. In this case two PCI 32 bit slots and the PCI Express 16x slot are limited to half length. Still three PCI 32 bit slots remain full length.

As the DEWE-5008 is designed for field use, special care is taken in fixing the cards. Rugged guides for full-size cards and a fixing bar hold all installed cards in place safely.

The DEWE-5008 industrial computer even offers a removable panel on the right side for maximum OEM customization. It is quite popular to mount connectors like Lemo, SUB-D or Binder sockets here to e.g. have more rugged connectors like on the cards or provide power supply to some peripherals.

Option **BAT-CHARGER-1** and **BAT-CHARGER-4**

Option **5000-DC-12V**  
Internal 9 .. 18 V<sub>DC</sub> power supply  
including external AC adaptor.

The carrying bag is included as  
standard accessory

**DVD-BURNER**  
for data backup to DVD or CD

<sup>1)</sup> Please find current specifications in the latest price list

<sup>2)</sup> Depends on the system configuration

<sup>3)</sup> Tested with Solid State Disk

The DEWE-808 is our benchtop or rack-mounting industrial PC, made the "DEWETRON way" - all metal construction, and built to demanding shock and vibration standards. The DEWE-808 model is a normal depth, and therefore accepts full length PCI cards, while the DEWE-818 is shorter in the rack, and therefore accepts only half size and smaller PCI cards

The systems are designed for both laboratory and rack-mount usage. High quality production of the systems is complemented by an attractive price.

**System options and upgrades for DEWE-800 series****Options**

|               |   |
|---------------|---|
| 800-MK        | 19" mounting kit for the DEWE-800 series, 4U  |
| FIREWIRE-1394 | PCI FireWire® IEEE-1394 interface for the DEWE-800 series   |
| 800-DC-12V    | Power supply 9 to 18 V <sub>DC</sub> (no internal battery), max. output 300 W, Lemo EGJ.3B.302 for DC input, incl. external AC adaptor  |
| 800-DC-24V    | Power supply 18 to 36 V <sub>DC</sub> (no internal battery), max. output 300 W, Lemo EGJ.2B.302 for DC input, incl. external AC adaptor |

**Upgrades**

|                  |  |
|------------------|--|
| HDD-1000-SSD-480 | Upgrade to 480 GB flash disk (replaces 1000 GB hard disk), max. data throughput 100 MB/s |
|------------------|--|

**Additional upgrades - for DEWE-808 only!**

|                   |   |
|-------------------|---|
| 800-CPU-UP-I7     | Upgrade of PC for DEWE-800 series consisting of mainboard with 4 PCI slots Intel® Core™ i7 processor 2.8 GHz and 4 GB RAM |
| BAY-5.25-SATA     | 5.25" SATA removable drive bay, standard height 43.2 mm / 1.70 in., no hard disk included, max. one drive bay per unit    |
| HDD-3.5-SATA-1000 | 1000 GB SATA hard disk 3.5", for installation into a 5.25" removable drive bay  |
| HDD-INT-MINUS     | Remove the internal fixed hard disk   |

The DEWE-808 accepts an optional 3.5" removable hard disk, which is typically needed for classified work.

Another popular configuration is to keep the internal hard drive and add a removable extra drive for data storage.

**Option 800-DC-12V**  
Internal 9 .. 18 V<sub>DC</sub> power supply including external AC adaptor.

**800-MK**  
19" mounting kit

**DVD-BURNER**  
for data backup to DVD or CD
